Environmental Policy

RMJM Joinery Ltd Environmental Policy is as follows;

It is the policy of the company to seek to achieve compatibility between the environment and the processes and products of its operation. The company will take those steps necessary to prevent or abate adverse impacts on the environment that may result from their operations or products.

The company will seek to remain at the forefront of technology with a long-term commitment to environmental improvements, seeking to minimize waste and achieve the most efficient use of energy and raw materials. The organization will set environmental objectives and targets and will regularly review progress towards such objectives and targets.

The company will endeavour to work closely with the relevant statutory bodies to meet and where possible exceed all applicable legislation and to co-operate with the appropriate authorities in the information of standards and means of compliance.

Employee involvement in environmental matter is encouraged at all levels and will be promoted through training, communication and a constant appraisal of working practices and procedures.

The company will take measures to ensure that all employees are familiar with the Company's Environmental Policy and will ensure that all training programs contain appropriate environmental information.
